5. Acquire the ability to think about complex economic issues in a logical objective manner, so that you discriminate between correct solutions to economic problems, and common misconceptions.
6. Evaluate different economic arguments and interpret the reasons why some are well-founded, while others are not.

The Hybrid Course Model

A "hybrid" course is slightly different from the traditional courses offered at CU. The hybrid course is a combination of face-to-face class time and various learning tools and content shared online. The
