international economy and important developments in the global economy. The economic theory emphasized in the class will give the student a better understanding of the foundations for international trade. Understanding this material will allow students to relate the importance of trade to political and cultural relations.

Important developments in the world economy will be analyzed. We will look at how globalization is changing markets and impacting labor. Trends in the global economy will be studied in order to evaluate potential future changes.

Textbook
International Economics 9th edition, by Steven Husted and Michael Melvin is required
