

Economics 3818-040: Introduction to Statistics with Computer Application  
Fall 2022  
Department of Economics  
University of Colorado Boulder

Instructor: Dr. Namsuk Choi  
Office: ECON 14C  
Cellular: 720-364-1060  
Email: Namsuk.Choi@Colorado.Edu

Email: Joongsan.Hwang@colorado.edu  
Zoom Office Hours: TBA  
Zoom ID on Canvas Course Site

Recitation 041  
Classroom: CRTS E155  
Meeting Time: T 3:35:25

Recitation 042  
Classroom: ECON 205  
Meeting Time: TH 11:15:05

#### Website

Canvas is our class website:

- x Login using your University of Colorado Boulder ID and password  
<https://canvas.colorado.edu/>
- x Under Course List, click "ECON 3818: Introduction to Statistics"
- x Note: all email correspondence will be through your CU Boulder email address. Do not use the Canvas mail or messages; it is not checked.

#### Course Overview

The purpose of this course is to introduce you to the principles of statistical reasoning and inference. To this end, the ultimate goal of the course is for you to thoroughly understand the following concepts describing data with graphs and

course. Finally, this course helps you build a skill that has enormous potential financial return in the marketplace.

The course consists of five closely related parts. The first part of the course introduces ways to explore data using visual and numerical measures. You will learn about summary measures for single variables and we will consider relationships between variables. The second part of the course introduces you to basic probability theory, popular probability distributions, and mathematical expectation. The third part of the course introduces you to sampling distributions and their properties: properties of estimators, confidence intervals, and hypothesis testing. The fourth part of the course is all applied statistical inference including inference about the mean of a probability

## RELIGIOUS HOLIDAYS

Campus policy regarding religious observances requires that faculty make every effort to deal
