There will also be some material presented that is not in the book. You are likely to find that class attendance will be important. Getting notes, if you must miss a class, will be quite helpful, since the concepts in the book will be illustrated with numerous additional examples during class discussion. All notes are not created equal--if you must miss, get somebody's notes who is a good note-taker.

Administrative Matters:

There will be two midterms (30% each) and the final (40%). The test format is, effective with the Fall 2004 semester, multiple choice--because of ever-increasing class sizes at C.U. As a consequence, the historical sample tests on 4
