

University of Colorado  
Department of Economics

(for non-economics majors)

P. Graves  
Fall 2010, HLMS

Graves, P.E. Environmental Economics: A Critique of Benefit-Cost Analysis (New York: Rowman & Littlefield, 2007).

There will also be some material presented that is not in the book. You are likely to find that class attendance will be important. Getting notes, if you must miss a class, will be quite helpful, since the concepts in the book will be illustrae
