**University of Colorado at Boulder**  
**Math tools for Economists 1**  
**ECON 1078-004**  
**Spring 2008**

**MEETING TIME:** MWF 12:00 PM-12:50 PM  
**ROOM:**BESC 185

**Instructor:** Ying Li

**Office:** ECON 306

**E-mail:** [liy@colorado.edu](mailto:liy@colorado.edu)

**Web:** <https://webfiles.colorado.edu/liy/www/>

I will use CUlearn to post relevant materials and your grades

**Office Hours:** MW 3:00P.M—4:15 P.M And by appointment

**Course Description and Objectives:**

The goal of this course is to provide students the basic mathematical tools needed for business and economics. The materials covered in this course include: rules of algebra, solving linear and nonlinear equations, essentials of set theory, and functions. For a complete list of topics see the course schedule that follows.

**Textbook:**

*Essential Mathematics for Economic Analysis*, 2<sup>nd</sup> edition, by Knut Sydsaeter, and Peter Hammond. You will also use this book for ECON1088. Since you can always refresh your knowledge of algebra and calculus by referring to this book, *please keep it as your reference book for undergraduate courses.*

**Grading:**

Your grade will come from the following breakdown:

- 15% - Quizzes (Top 4 out of 5 scores)
- 5% - In-Class Assignments
- 25% - Midterm 1 (February 13th)
- 25% - Midterm 2 (April 2nd)
- 30% - Final (May 6th, 7:30-10:00 a.m.)

The midterms will be administered on February 13 and April 2 in class. Each test is worth 25% of the course grade. The midterms are not cumulative and will cover only the material since the previous test. If you miss a midterm exam, the weight of that exam will carry over onto the final.

The final exam is scheduled for **May 6<sup>h</sup> (Tue.)** from **7:30 to 10 am**. If you have three or more final exams scheduled on the same day, you are entitled to arrange an alternative exam time for the **last** exam or exams scheduled on that day. To qualify for rescheduling final exam times, you must provide evidence that you have three or more exams on the

---

same day.

### **In-Class Assignments**

Randomly throughout the semester I will assign problems for you to work on in class, which you will hand in to me before you leave. These problems are intended to provide practice and will be similar to problems you will see on quizzes and exams. As with the quizzes, the lowest of your in-class assignment scores will be automatically dropped.

### **Grading Scale:**

93% to 100% A  
90% to 92% A-  
88% to 89% B+  
82% to 87% B  
80% to 81% B-  
78% to 79% C+  
72% to 77% C  
70% to 71% C-  
68% to 69% D+  
62% to 67% D  
60% to 61% D-  
59.5% F

### **Calculator Note:**

As this is a course designed to teach mathematical techniques you will need a calculator that can do basic mathematical functions. These include exponentials, logarithms, radicals, and factorials ( $\log$ ,  $\ln$ ,  $e^x$ ,  $n^x$  and  $x!$ ). Any basic scientific calculator will perform these functions. While a graphing calculator may be useful in doing some of the homework problems, **you cannot use a graphing calculator on the exam.**

### **Make-Up Exams:**

There will be **NO** make-up In-class assignments, quizzes, or exams for this class. If you miss a midterm exam with a documented excuse, the weight given your final exam will be increased.

### **General Policies:**

- (1) There will be NO make-up in-class assignment, quiz, or exam for this class without formal documentation, like doctor's note. For your midterms, if you miss any of them, your final will be weighted automatically. Of course, you CANNOT miss the final.
- (2) If you need to take the final other than the scheduled time, you must let me know at least two weeks ahead with formal documentation.
- (3) If you have any question about the materials, like questions in problem sets, you are more than welcome to go to my office hours after making appointment with me.

- 
- (4) You are responsible for any missing class. If you miss any class, please borrow the notes from others and read the materials BEFORE going to my office hours. I am not going to re-lecturing during my office hours since it will waste other students' time.
- (5) Since I will announce important information through class email, you are responsible for checking your Colorado email account.
- (6) According to the university policy, no grades are allowed to be released via email. In other words, I am prohibited from emailing any grade to you.
- (7) Any concern or question about your grades should be raised before the end of the specified date, which will be announced through class email.

**Tentative Course Schedule:**

<b>Week of</b>	<b>Course Material</b>	<b>Topics</b>	<b>Quiz/Exam</b>
1/14	1.1, 1.2, 1.3, 1.4	Algebra Basics	
1/21	1.5,1.6	Fractions and Inequalities	Quiz 1 (Friday 1/25)
1/28	1.7, 2.1, 2.2	Simple Equations	
2/4	2,3, 2.4, 2.5	Radicals, Equations in One Variable	Quiz 2 (Friday 2/8)

---

**Additional Notes:**

***Disability***

If you qualify for accommodations because of a disability, please submit to me a letter from Disability Services in a timely manner so that your needs may be addressed. Disability Services determines accommodations based on documented disabilities. Contact: 303-492-8671, Willard 322, and <http://www.Colorado.EDU/disabilityservices>

***Religious Holidays***

Campus policy regarding religious observances requires that faculty make every effort to reasonably and fairly deal with all students who, because of religious obligations, have conflicts with scheduled exams, assignments or required attendance. If any of the scheduled exams in this syllabus conflicts with your religious holiday(s), notify me within the first two weeks of classes so that I can accommodate you as reasonably as I can in accordance with the above stated policy.

***Code of Behavior***

Students and faculty each have responsibility for maintaining an appropriate learning environment. Students who fail to adhere to such behavioral standards may be subject to discipline. Faculty have the professional responsibility to treat all students with understanding, dignity and respect, to guide classroom discussion and to set reasonable limits on the manner in which they and their students express opinions. Professional courtesy and sensitivity are especially important with respect to individuals and topics dealing with differences of r
