Prof. Jeffrey S. Zax zax@colorado.edu 303-492-8268 Economics 4818 Syllabus and Schedule 9 January 2009

http://www.colorado.edu/Economics/Zax

Welcome. I am Prof. Jeffrey S. Zax. This is Economics 4818, Introduction to Econometrics.

Course description:

The purpose of this course is to introduce students to the practice of econometric analysis. This introduction includes relatively rigorous training in basic econometric and statistical theory, and practical exercises using Census and simulated data. The successful student should be trained to perform econometric analysis at well above the standards ordinarily encountered in commercial and government practice.

This course requires previous successful completion of Economics 3818, <u>Introduction to Statistics with Computer Applications</u>, or its equivalent. In particular, it assumes that students understand expected values. This course does not require calculus or linear algebra. However, success is not possible without competence in algebra. In particular, it assumes that students understand summation signs.

The material to be mastered in this course is contained in the lectures, problem sets, computer exercises and textbook. The text for this course is the draft of my Introductory Econometrics: Introductory Econometrics: Intuition, Proof and Practice, referred to in the schedule as "text". Photocopies of this text are available at the UMC bookstore. The text, assignments, answer keys and other communications will be available at the course website:

http://www.colorado.edu/Economics/Zax/Econ4818/spring09/webpages/econ4818.html.

This course will meet on Tuesdays and Thursdays from 2:00 p.m. until 3:15 p.m. throughout the semester in Economics 119. I will hold regular office hours between 1:00 p.m. and 2:00 p.m. and between 3:30 p.m. and 4:00 p.m.on Tuesdays and Thursdays in Economics 111, my office. Appointments can be made for meetings at other times, if these are inconvenient.

Performance in this class will be judged on the basis of several instruments. The final examination will take place on Saturday, 2 May, from 7:30p.m. –10:00p.m. It will require the full 2.5 hours and be worth 150 points. Any student who has three or more final examinations scheduled on 2 May has the right to reschedule all exams following the first two. Any student wishing to invoke this right must do so by 20 February.

A 75-minute midterm examination, worth 75 points, will take place on 10 March. A 25-minute quiz, worth 25 points, will take place on 14 April. Problem sets will be usually be assigned weekly. They will typically consist of problems from the text. All problem sets together will be valued at 150 points. Solutions to the midterm examinations and problem sets will be available

² University polices regarding religious practice are available at

bribery, threatening behavior and assistance to acts of academic dishonesty are examples of behaviors that violate this policy. Ordinarily, a student engaged in any act of academic dishonest will receive a failing grade for the course. In addition, all incidents of academic misconduct shall be reported to the Honor Code Council. Depending on its findings, students who are found to be in violation of the academic integrity policy will be subject to non-academic sanctions, including but not limited to university probation, suspension, or expulsion.⁵

⁵ The Honor Code Council can be contacted by email at honor@colorado.edu or by telephone at 303-725-2273. Additional information regarding the University Honor Code is available at http://www.colorado.edu/policies/honor.html and at http://www.colorado.edu/academics/honorcode/.
