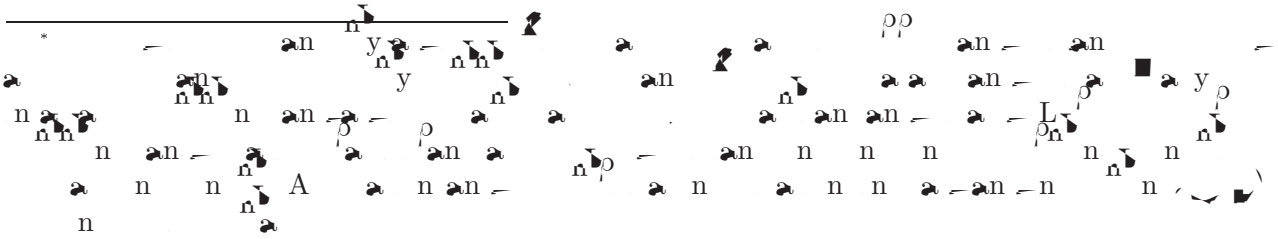
This Draft: November 2012

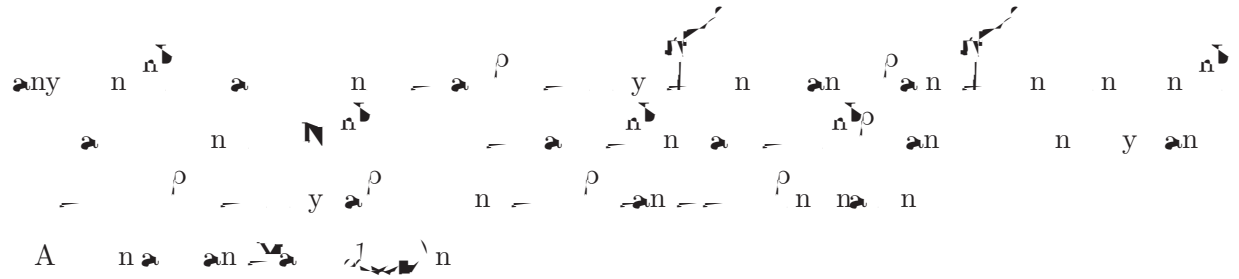


† **E-mail address:** L

Abstract

[illegible]

1 Introduction



Japan's economic growth in the postwar period has been characterized by a very rapid growth in productivity, achieved, to a great extent, through massive borrowing of technology from more advanced countries.

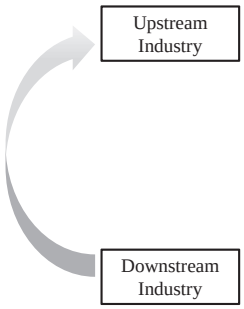
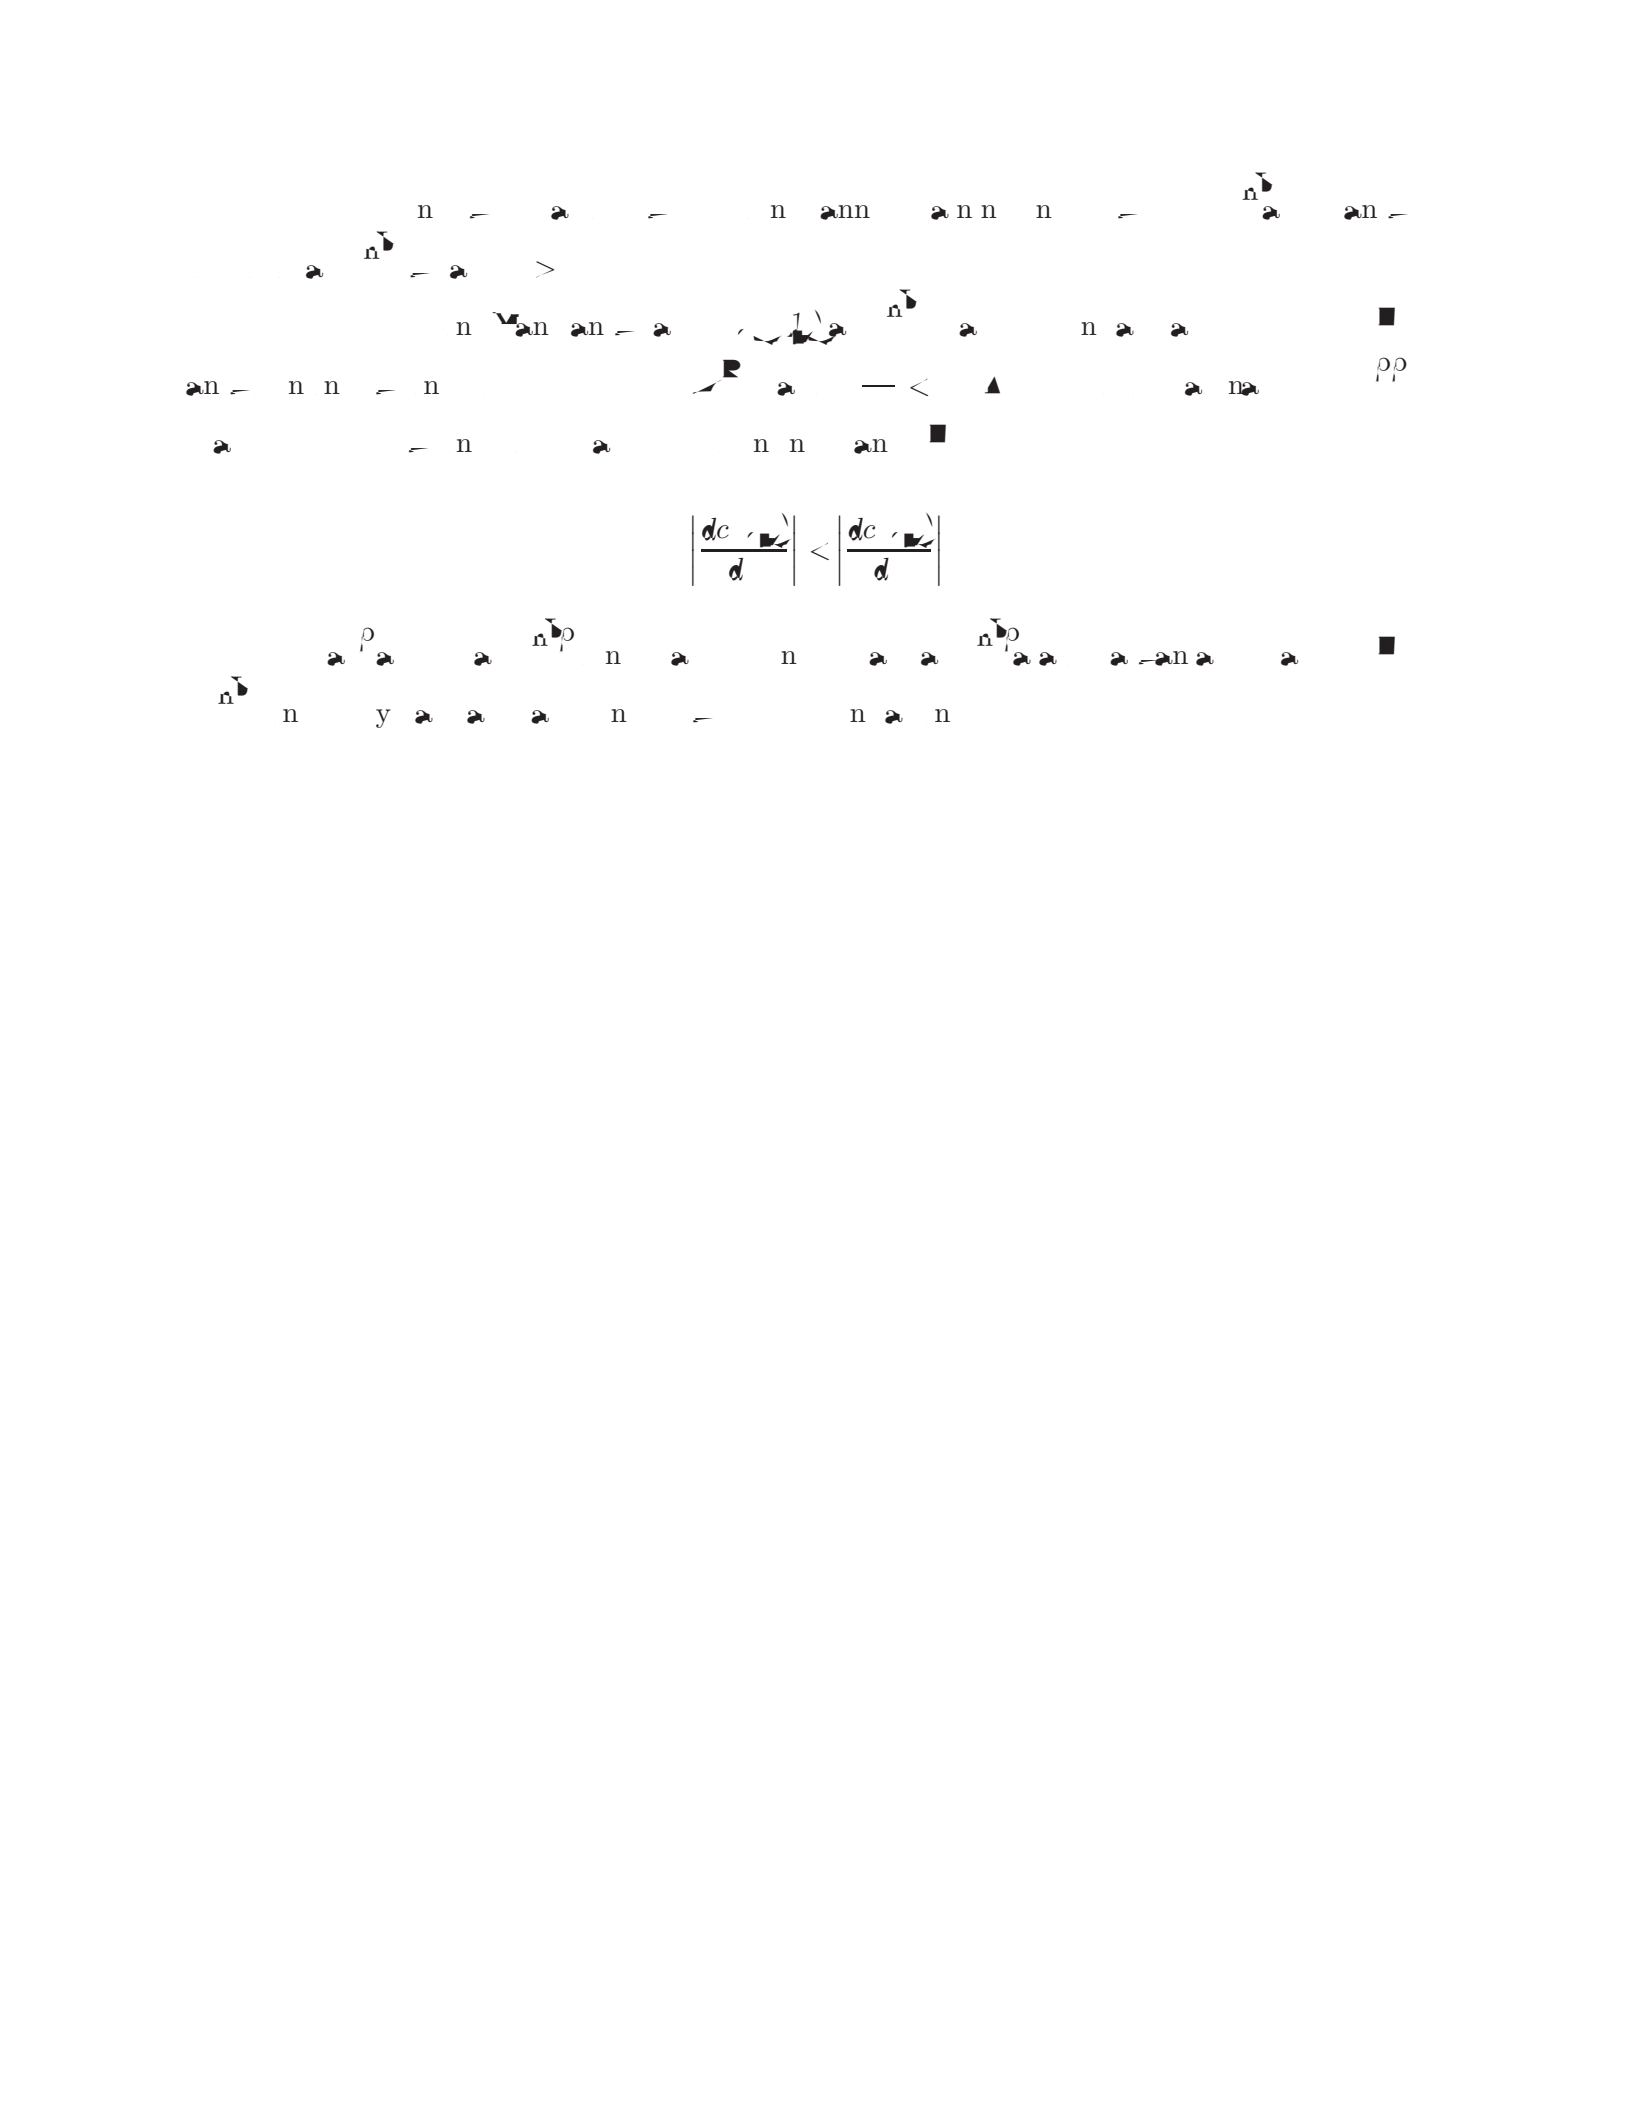
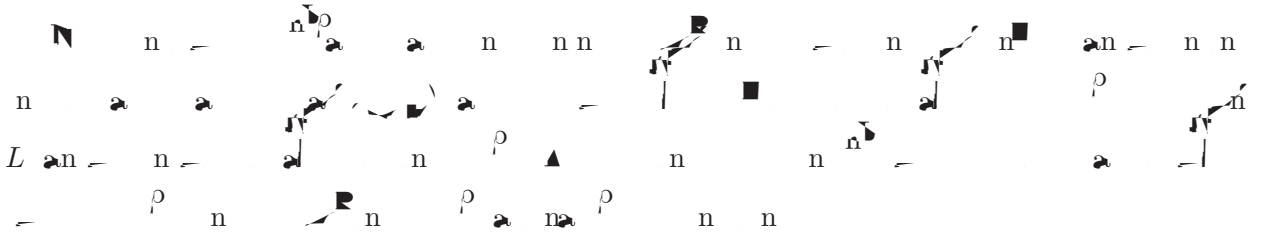
Burger King

Crown Aluminio

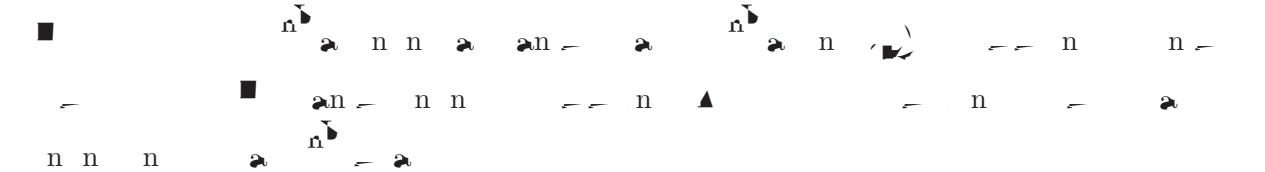


2 Theory Model

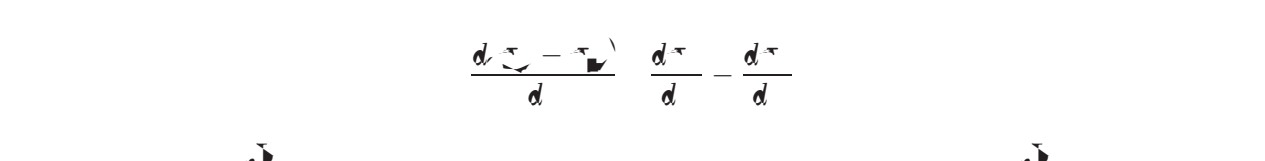




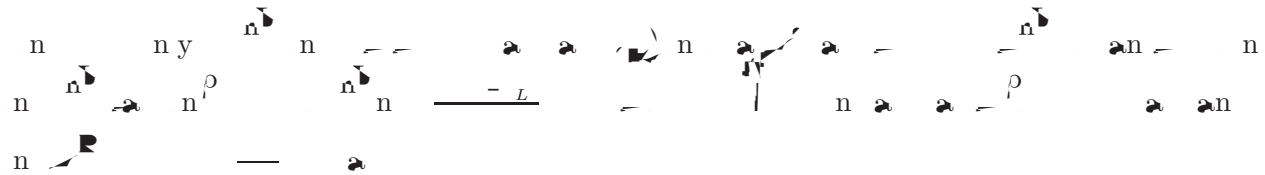
$$\frac{d}{d}\qquad \frac{d}{d}\qquad \frac{d}{d}$$



$$\left|\frac{d}{d}\right| < \left|\frac{d}{d}\right| \quad \Rightarrow \quad \frac{d}{d} \quad \frac{d}{d} - \frac{d}{d} >$$



$$\frac{d}{d} \quad \frac{d}{d} - \frac{d}{d}$$

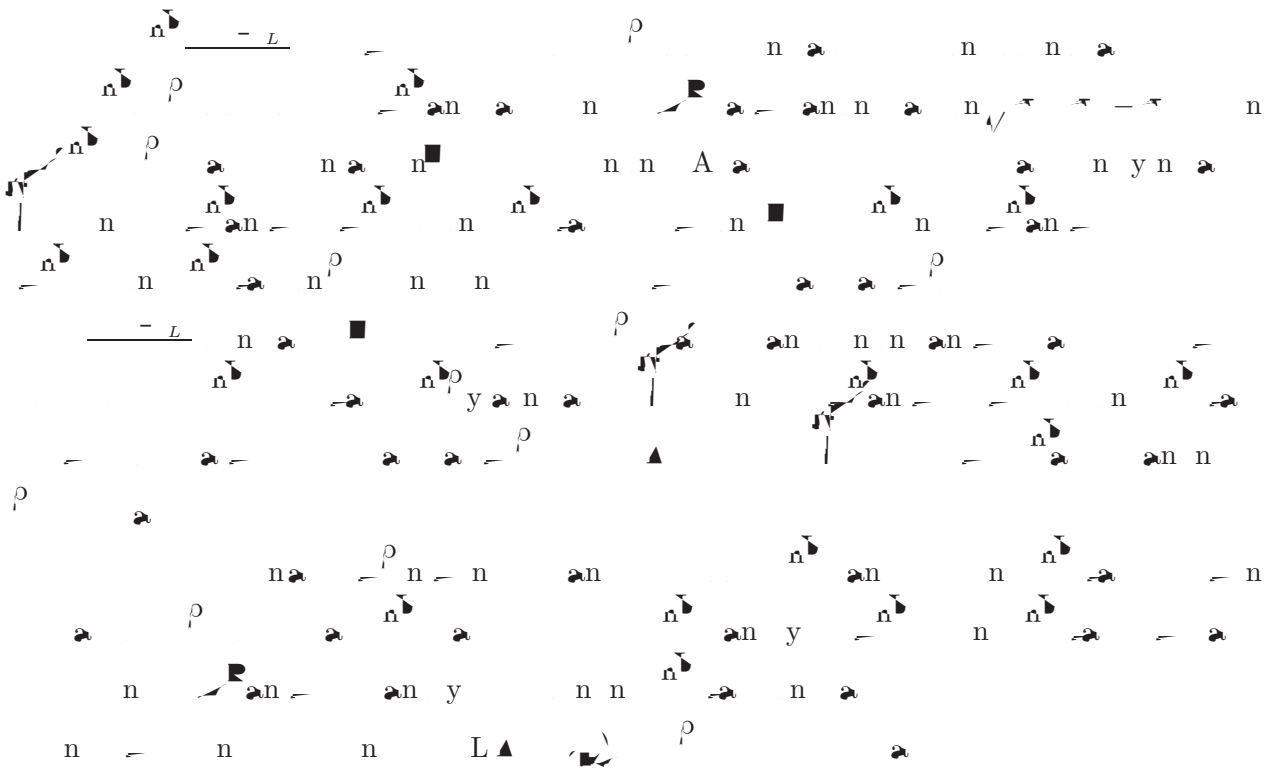


$$\frac{d}{d} \quad p \quad 1- \quad - \left[\quad \quad 1- \quad \right] \quad - \quad \frac{d}{d} \quad - \frac{d}{d}$$

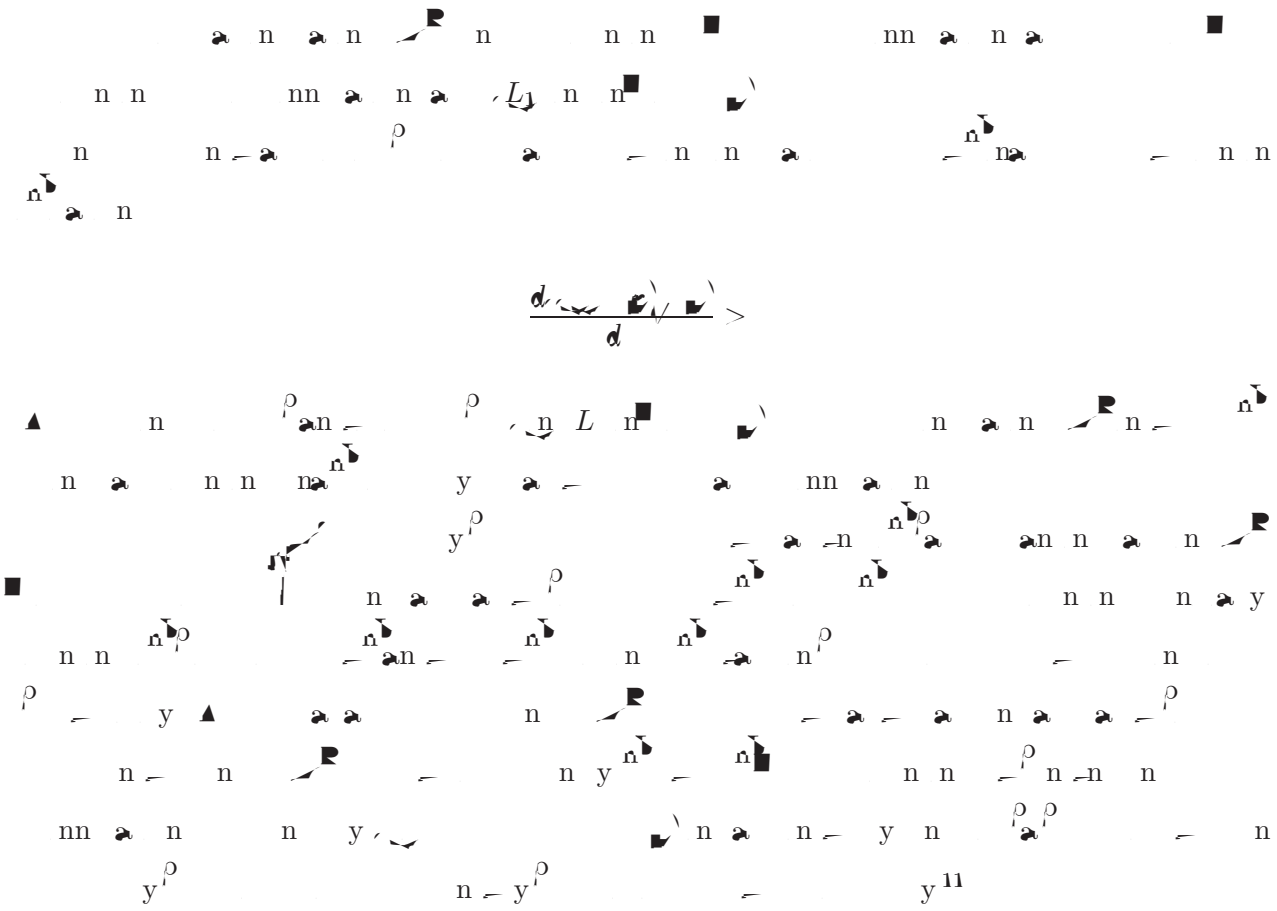
$$\frac{d}{d}\left(\quad - \right)$$

$$p \quad 1- \quad - \left[\quad \quad 1- \quad \right] \quad - \quad >$$

$$\frac{d}{d} \quad \frac{d}{d}\left(\quad - \right) \geqslant \quad \frac{d}{d} \quad \frac{d}{d}\left(\quad - \right) \geqslant$$



$$sin\left(\frac{d\,_\ -\ _}{d}\right)\quad sin\left(d\right.$$



3 Data

3.1 Firm level data

Encuesta Nacional Industrial Anual

[11] **For a more detailed treatment of the second hypothesis see Castro (2012).**
[12]

International Standard Industrial Classification of All Economic Activities

3.1.1 Data cleaning

Tarapacá Arica y Parinacota Tarapacá Los Rios Los Rios Los Lagos

[13] This could present a problem if the majority of firms are multi-plant; however, as noted by Pavcnik (2002), using a previous version of this dataset, around 90% of the firms have a single plant. For the 2001–2007 period, this figure is around 89%.

[14] See: http://unstats.un.org/unsd/cr/registry/regcst.asp?cl=2 for more detail.

[15] The covered industries are, in terms of ISIC (Rev.3) codes, 17, 18, 19, 20, 21, 22, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36. ISIC (Rev.3) codes of the manufacturing sector ranges from 15 to 36. Industries 16 (tobacco) and 23 (coke, refined petroleum products and nuclear fuel) have no observations in the dataset.
