

Experts in four different work packages :

1. WP 1. Evolutional theory expert: understanding the fundamental laws of adaptation

Deadline: April 15<sup>th</sup>, 2022

The Academy of Finland has two partners in the United States: the National Science Foundation (NSF) and the National Institutes of Health (NIH). The Academy and the American funders have agreed to promote Finnish-American research collaboration in 2020 –2024. Cooperation will be strengthened by funding research projects between American and Finnish parties in areas represented by the research flagships included in the [Academy's Finnish Flagship Program](#). The collaboration between the funders follows a lead agency model with the US -agency reviewing applications and the Academy of Finland providing additional funding for Finnish PIs, thus enlarging the overall possible budget.

To support the utilization of these opportunities the Finnish-American Research & Innovation Accelerator (FARIA) launched in collaboration with the Academy of Finland a light-weight matching and preparatory program for US and Finnish researchers – the FARIAincubator.

The FARIAincubator is a program that encourages the creation of joint project teams and prepares them to apply for funding. The preparation is conducted via a series of four online seminars which aim to share up to date information of the joint Finnish-US calls and coaching by experienced grant writers.

- Reach new potential collaborators specific to your field of interest
- Qualify for joint Academy of Finland/NIH/NSF funding by partnering
- Stay up to date on funding criteria and application processes
- Increase the quality of your proposal and thereby success chances for funding

Finnish researchers submitted a draft research/project idea and description of the kind of collaborator expertise or 2T d8H382 g- Q q 0.000008871 0 5952.3 0.2iptied
